

filter cartridge CDFX-220B "WATER BARRIER VELCON"

Product codes:

Reference:
PC214-00406
EAN13: -
UPC: -

Product attributes:

Product description:

Features and Benefits

- Innovative barrier technology:

Water and dirt are prevented from passing downstream of the filter, allowing only clean, water-free fuel to be used.

- Performance in line with current EI and JIG specifications:

Emulsified water defence and full plug protection.

- Cost and resource efficient:

Fits into currently deployed filter monitors...without the need for costly retrofits or the addition of electronic water passage control sensors.

- No more worries about migration of SAP (super absorbent polymer) media or extrudables downstream and into filtration systems.

- Compatible materials:

Uses industry standard materials of construction (nylon, PTFE and urethane).

For more information or a detailed discussion of your specific needs, please contact Parker or a Parker authorised distributor.

Caractéristiques techniques

- Débit :20 USGPM (75,70 Lpm)
- Référence du concurrent compatible :Facet: FG-220-7 / Faudi: DDO2.2-20-2
- Longueur :20 13??? inch (528,574 mm)
- Division :Hydraulic & Industrial Process Filtration EMEA
- Marque :Parker
- Technologie :Filtration
- Type de produit :Fuel Filter
- Type de filtre :Water Barrier
- Série de produits :CDF-X
- Application :Aircraft Refuelling
- Secteur :Aerospace
- Matériaux utilisés :Nylon
PTFE
Urethane
