Product description:

Our selection of ZIPSON spring return ball valves is easy to use and highly reliable.

The valve closes automatically when the operator releases the actuator.

Material: Stainless steel (ball and handle) Connections: 2 "NPT Female

Contact us for more information on our different valve sizes or if you can't find the product you need.

test customer feedback: "After 9 months of intensive use in bunkering operations, the valve remains reliable. No leakage from the valve outlet.

No loosening of the three handle fixing points. The valve and handle spring return well. Orange handle guard remains in place.
